- We recognize those who complete a major within our Technology Center. Next year our district Diploma with Distinction is tied to completion of a major.
- There has not been anything put in place at this time for our area. Thanks Louise
- Certificate recognition on Senior Award's Day. Cords purchased from Josten's
- National Technical Honor Society
- To my knowledge, there is nothing in place to recognize students who have committed to a career major. My opinions in these matters are as follows: Students need to be honored and rewarded for thier commitment in achieving their goals. A Certification of Completion as well as colored cords representing each career major would provide recognition for these distinguished graduates. This recognition would help emphasize the value of the EEDA mandates.
